SPECIAL ANNOUNCEMENT

1982 Bibliography of ERIC Clearinghouse Publications

Each year the 16 ERIC clearinghouses produce almost 200 major publications on important topics in education. These publications synthesize and compress the educational literature into formats more suitable for practitioner use. To facilitate public access to these publications, ERIC produces an annual bibliography of ERIC clearinghouse publications indexed by Subject, Author, and Institution.

ERIC Clearinghouse Publications, 1982, is now available. It contains bibliographic information and abstracts for 181 publications. Copies of this bibliography are available free of charge from the ERIC Processing and Reference Facility, 4833 Rugby Avenue, Bethesda, Maryland 20814.

Copies of the publications listed in the bibliography are available directly from the clearinghouses that produced them, as long as the supply lasts. In addition, the publications are available in microfiche and paper copy from the ERIC Document Reproduction Service (EDRS), P.O. Box 190, Arlington, Virginia 22210. The EDRS microfiche and paper copy costs are included in each bibliographic entry.

July-December 1983

Semiannual Index

Resources in Education (RIE) is processed for printing by ORI, Inc., under contract with the National Institute of Education, U.S. Department of Education, and published monthly by the U.S. Government Printing Office (GPO) with printing funds approved December 1980 by the Office of Management and Budget. Contents do not necessarily reflect official NIE policy.

Copies of *RIE* are available from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.C. 20402. Inquiries regarding subscription prices (12 issues/year) and single issue prices should be directed to the Superintendent of Documents.

Two *Semiannual Indexes to RIE* (January-June and July-December) are available from GPO. Contact the Superintendent of Documents for prices.

Introduction

This volume cumulates the indexes that appeared in the monthly issues of **Resources in Education** from July through December 1983. This cumulation is intended to be a companion volume to the individual issues of **Resources in Education**, where the complete resumes of educational documents and their availability appear. It will be most useful to those who have access to copies of the monthly journal.

The five indexes are arranged as follows:

- Subject
- Author
- Institution
- Publication Type
- Clearinghouse Accession Number/ED Number Cross Reference Index

Each entry shows the title of the document and the ED number assigned to the complete resume when it was originally announced in **Resources in Education**. The searcher can use the number to locate a particular resume by referring to the ED number ranges that are displayed on the spine and title page of each monthly issue.

Subject Index

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the *Thesaurus of ERIC Descriptors*, are in alphabetical order.

As shown in the example below, the accession number is displayed below and to the right of the document title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.
